Back To Nature

Remember the old days, when life revolved beneath the shade of humble trees? Where time stood still, for people to meet friends, make new acquaintances, play, read, share a meal, or simply do nothing at all, leading a healthy life embraced with nature.

Recreating this sense of healthy, old-world neighbourliness and a sustainable community with an eco-living lifestyle, in a perfect harmony with nature is a great gift for next generation.

At a very convenient distance from Hyderabad, the location is a perfect suburb escape from the bustling citylife.

The site is located near Chevella in the suburbs of Hyderabad 45 mins drive from TSPA ORR EXIT. The site falls on the way from Hyderabad to Vikarabad and hence, the highly elevated terrain extends all the way from Vikarabad to site and has pleasant climatic conditions.

TERRACE EXTERIOR TILES

The perfect option for terrace floor covering

Terrace Tiles

Terrace tiles, also known as outdoor or patio tiles, are specifically designed tiles for use on terraces, balconies, rooftops, and other outdoor spaces. These tiles are engineered to withstand harsh outdoor conditions, including exposure to sunlight, rain, temperature changes, and foot traffic.

Terrace tiles come in various materials, styles, and sizes to suit different design preferences and functional requirements. At H&R Johnson, you can find several types of tiles suitable for terrace and balcony flooring.

You can aim to control the indoor temperatures using special cool roof tiles or provide a beautiful seating area with designer tiles.
